Projects

Dinner & A Show | Repository | Deployed - UI/UX

- Find music events and display nearby food options
- This app helps the everyday busy person that doesn't have a lot of time for planning to be able to easily and efficiently plan a night out with a concert and food options that are nearby with different cuisines
- Our team utilized HTML, HalfmoonCSS, JavaScript with three (3) different Application Programming Interfaces (APIs: Songkick, Zomato, Google Maps)

Education

MAY 2020 - NOVEMBER 2020
Case Western Reserve University, Cleveland, OH - *Full Stack Certificate*
